

Notification to the customers

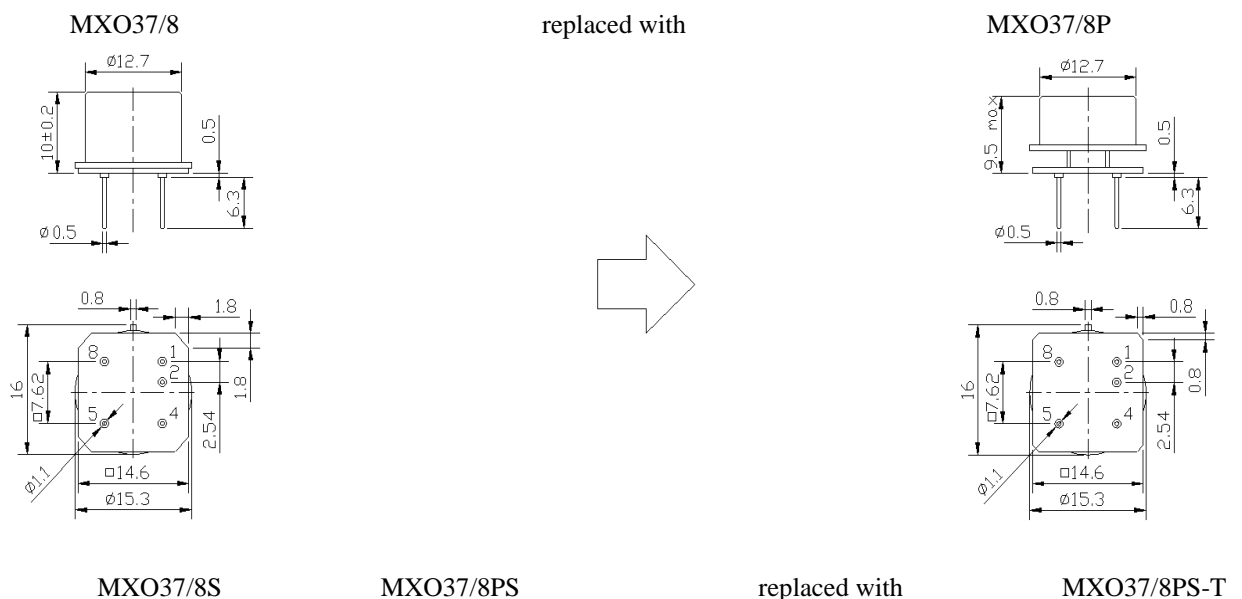

Since October 1st 2021 Magic Xtals ceases accept new orders for the following OCXO models: MXO37/8, MXO37/14, MXO37H/14, MXO37/8PS, MXO37H/14PS and MXO37/14PS. These models will be considered obsolete and replaced by modern equivalents as per the table below.

Obsolete OCXO	Modern OCXO
MXO37/8-	MXO37/8P-
MXO37/8S- MXO37/8PS-	MXO37/8PS-T
MXO37/14-	MXO37/14P-
MXO37/14S- MXO37/14PS-	MXO37/14PS-T
MXO37H/14-	MXO37H/14P-
MXO37H/14S- MXO37H/14PS-	MXO37H/14PS-T

The main reason for the replacement is improvement of reliability of the OCXOs for more perfect cleaning after their assembling due to 1 mm gap between the resonator and the PCB, as well as for excluding of the frangible bent legs in the SMD version. Moreover, the modern models provide much better frequency stability owing to usage of advanced oscillator circuitry and have only 9.5 mm height.

Production of the modern OCXO launched more than 7 years ago. Presently these devices are basic OCXO models for most our customers all over the world.
